Dealer and Leasing Company Reservation Form Instructions

- A. Reservation requests will only be accepted for vehicles placed on order. The reservation form must be completed by a dealer or leasing company (not an individual applicant) and returned to the TCEQ according to the instructions provided on the form.
- B. Upon receiving and accepting a reservation form, TCEQ will assign a reservation confirmation number verifying that the purchase or lease is being assigned a place in line for consideration under the first-come, first-served rebate process. TCEQ will notify the applicant by phone or email of the reservation number and the expiration date of the reservation. The expiration date of the reservation will be determined by TCEQ based on the expected vehicle delivery date along with consideration of the period of availability of the grant funds. The TCEQ is not obligated to accept the reservation request and assign a reservation number.
- C. TCEQ may, at its discretion, provide a list of the current reservation numbers assigned on the TERP website. The dealer or leasing agent should not assume that a place in line is being held for that purchase or lease until and unless a reservation number is provided.
- D. A rebate application for the specific purchase or lease by the purchaser or lessee identified in the reservation request must be received before the expiration date of the reservation in order for the assigned place in line to apply. If the application is received after the reservation expiration date, the application will be considered based on the date of receipt of the application, rather than the preassigned place in line.
- E. This process is made available so that a dealer or leasing agent may request a place in line for a specific purchase or lease that is being ordered. This process is not available for dealers to reserve blocks of rebates to be used to market vehicles to potential buyers or lessees. The dealer or leasing company must provide the information requested on the reservation form provided by TCEQ.
- F. A valid vehicle order document must be provided with the reservation form, including information about the vehicle make, model, and model year and the buyer or lessee of the vehicle. The order document should also include the expected vehicle delivery date.
- G. The assignment of a reservation number by the TCEQ is not a guarantee of eligibility or that a rebate grant will be awarded. Dealers and leasing agents should not imply to a purchaser or lessee that once a reservation number is assigned the award of a rebate is assured.
- H. TCEQ may suspend or cancel this reservation process at any time and without prior notice, although every attempt will be made to hold the place in line for any vehicle purchase or lease that is on the list prior to that time.
- I. TCEQ may establish a limit on the number of reservations that may be made by an individual dealer or leasing company or for an individual applicant, without amendment to the Notice of Rebates (NoR) or other notice.
